

Product Name FIRESHIELD 2FR	Date of Issue 30-07-2015	Issued by P. Olsson	Approved by J. Connochie	Page 1 of 6
---	-----------------------------	------------------------	-----------------------------	-----------------------

1. Identification of the substance/preparation and of the company/undertaking

1.1 Product identifier

Product name: *FIRESHIELD 2FR*

1.2 Relevant identified uses of the substance or mixture and uses advised against

Chemical/technical description: *Water based intumescent paint*

Field of application: *Indoor, used to prevent spread of fire in internal wall and ceiling linings made of solid wood or chip board. For fire protection of structural timber works.*

1.3 Details of the supplier

Company: *Fire Protection Coatings Ltd*

Address: *Unit 4, 201 Opawa Road, Hillsborough Christchurch*

Contact person: *Per Olsson*

Phone: *0800 347 374*

E-mail: [*info@fireshield.co.nz*](mailto:info@fireshield.co.nz)

Website: [*www.fireshield.co.nz*](http://www.fireshield.co.nz)

1.4 Emergency telephone number

Supplier Emergency Contact *027 439 4271 (day time only)*

NZ Poisons Information Centre *0800 764 766*

Emergency Services *111 – Fire, Police or Ambulance*

2. Hazards identification

2.1 Statement of Hazardous Nature

This preparation is not classified as a health or environmental hazard according to the Hazardous Substances (Minimum Degrees of Hazard) Regulations 2001.

2.2 HSNO Classification and Hazard Statements

Not applicable as there are no known hazards.

2.3 Prevention Statements

Not applicable as there are no known hazards.

Fire Protection Coatings Ltd, exclusive importer of PROTEGA intumescent paints to Australia and New Zealand

FIRE PROTECTION COATINGS LTD, PO Box 19-888, Woolston, Christchurch 8022

E-mail: info@fireshield.co.nz | Tel: 0800 FIRESHIELD / 0800 347 374

fireshield.co.nz

2.4 Other Hazards

Not applicable as there are no known hazards.

3. Composition / information on ingredients

3.1 Compounds

The product does not contain any substance that is classified as hazardous to health or environment.

4. First-aid measures

4.1 Description of first aid measures

Inhalation of spray mist:	<i>Remove to fresh air. If irritation occurs seek medical advice.</i>
Eye contact:	<i>Rinse thoroughly with plenty of water. Remove contact lenses and contact a doctor if irritation persists</i>
Skin contact:	<i>Remove contaminated clothing. Wash off with soap and water. Contact doctor if symptoms remain.</i>
Ingestion:	<i>If product is swallowed do not induce vomiting. Rinse mouth with water. If symptoms persist, seek medical advice.</i>

4.2 Most important symptoms and effects, both acute and delayed

Classified as non-hazardous according to criteria in the Hazardous Substances (Minimum Degrees of Hazard) Regulations 2001. Frequent or repeated contact may degrease the skin, resulting in non-allergic contact dermatitis. Eye contact may cause irritation

4.3 Indication of any immediate medical attention and special treatment needed

Other information: *Treat symptomatically*

5. Fire-fighting measures

5.1 Flammability

The product is water based and is not combustible.

5.2 Special hazards arising from the substance or mixture

Not available

5.3 Advice for fire fighters

Not available

6. Accidental release measures

6.1 Personal protections, protective equipment and emergency procedures

Avoid contact with skin and eyes. Wash clean with water.

6.2 Environmental precautions

Product and wash water are prevented from getting drains or water courses.

6.3 Methods and material for containment and cleaning up

Take up mechanically and send for recycling of paint waste, see section 13.

6.4 Reference to other sections

See Section 8 regard personal protective equipment

See section 13 regard waste management.

7. Handling and storage

7.1 Precautions for safe handling

Take normal caution to avoid skin and eye contact. Observe standard industrial hygiene practices for the handling of chemical substances. Any waste is collected and returned to the recycling of waste paint

7.2 Conditions for safe storage, including any incompatibilities

Store at a temperature of + 5 ° C. Store in a dry place in tightly closed original container.

8. Exposure control / personal protection

8.1 Exposure Standards

Substances with an exposure limit: *No known exposure limit*

8.2 Exposure controls

If used according to, there are no health risks. Observe the general safety and hygiene measures. Wash and nourish the skin after work.

Respiratory protection:	<i>Good ventilation but no special protection is required. When spraying, use respiratory protection, half or full mask with dust filter FFP2 against spray.</i>
Hand, skin protection:	<i>Work clothes and suitable gloves (such as Nitrile gloves)</i>
Eye protection:	<i>Safety eyewear</i>
Thermal hazard:	<i>Non-flammable product.</i>
Environmental exposure controls:	<i>Avoid releases to water and drain.</i>

9. Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance:	<i>Thixotropic liquid</i>
Colour:	<i>White</i>
Odour:	<i>Mild</i>
Odour threshold:	<i>Not available</i>
pH:	<i>7.0</i>
Melting/boiling range:	<i>Not available</i>
Flash point:	<i>Not available</i>

Evaporation rate:	<i>Not available</i>
Flammability:	<i>Non-combustible materials. Product is converted into a thick layer of foam when exposed to high temperatures during a fire. The fine pore foam layer attenuates effectively the heat flow to the substrate.</i>
Vapour pressure:	<i>Not available</i>
Vapour density:	<i>Not available</i>
Density:	<i>1300 kg/m³</i>
Solubility:	<i>Miscible with water</i>
Viscosity:	<i>22000 mPa s, Brookfield RV, Sp 6, 10 r.p.m 23°C</i>
Volatile % (w/w):	<i>30%</i>
9.2 Other information	
VOC (bp <250°):	<i>1 g/l.</i>

10. Stability and reactivity

There is no test data for the reactivity of this product. The products are chemically stable and have no reactivity therefore; it is not expected to produce hazardous reactions. There are no special requirements with regard to incompatible materials and no conditions to avoid.

11. Toxicological information

11.1 Information on toxicological effects

There is no data available on the product itself and it does not contain any substances which are considered hazardous

Acute toxicity:	<i>The product is not expected to cause any health hazard</i>
Irritation:	<i>Long term exposure may cause skin irritation. Particles from the product may cause mechanical damage and cause eye irritation. Only by inhalation of spray mist may respiratory irritation may occur.</i>
Sensitisation:	<i>Not known</i>
Repeated dose toxicity:	<i>Not known</i>
Carcinogenicity:	<i>Not known</i>
Mutagenic effects:	<i>Not known</i>
Reproductive toxicity:	<i>Not known</i>

12. Ecological information

12.1 Information on ecological effects

There is no data available on the product itself and it does not contain any substances which are considered hazardous

Persistence and degradability	<i>Not available</i>
Bioaccumulative potential	<i>Not available</i>
Mobility in soil	<i>Not available</i>

13. Disposal considerations

13.1 Waste treatment methods

Do not allow entering drains and watercourses. Waste should be disposed of according to local regulation. This product is not classified as hazardous waste.

14. Transport information

UN-number	Not dangerous goods
Proper shipping name	Not applicable
Transport hazard class(es)	Product is not classified as dangerous goods.
Packing group	Not applicable
Environmental hazards	Product is not classified dangerous for the environment.
Special precautions for user	Transport by the user: Always transport the product in sealed package, upright. Ensure that persons transporting the product know what to do in case of an accident or spillage

15. Regulatory information

15.1 HSNO Approval

Not applicable

15.2 Chemical safety assessment:

No information available

16. Other information

Prepared with reference to: Preparation of Safety Data Sheets, Approved Code of Practice under the HSNO Act [COP 8-1], New Zealand Chemical Industry Council Sep 2006

Current Version: Dated 30 July 2015

Revision Information:

SDS may be revised from time to time, please ensure you have a current copy.

This revision: Updated to New Zealand standards, updated to be HSNO compliant, updated logo

Previous revision dated: 21 August 2012, Suppliers Safety Data Sheet

Disclaimer:

This safety data sheet attempts to describe as accurately as possible the potential exposures associated with normal use of the product described herein. Health and safety precautions in the data sheet may not be adequate for all individuals and/or situations. Users have the responsibility to evaluate and use this product safely and to comply with all applicable laws and regulations.

Whilst the information contained in this document is based on data, which, to the best of our knowledge, was accurate and reliable at the time of preparation, no warranty or responsibility can be accepted by Chemsafety Ltd for errors and omissions. The provision of this information should not be construed as a recommendation to use any of our products in violation of any patent rights or in breach of any statute or regulation. Users are advised to make their own determination as to the suitability of this information in relation to their particular purposes and specific circumstances. Since the information contained in this document may be applied under conditions beyond our control, no responsibility can be accepted by us for any loss or damage caused by any person acting or refraining from action as a result of this information.

The user is responsible for that last revision of this document is used. Please check on www.fireshield.co.nz.
