

STEEL1001

Single pack waterborne thin film intumescent coating.

Fireshield[®] Steel 1001 is a more environmentally friendly waterborne intumescent coating for the protection of interior structural steel sections optimised for 30 to 60 minutes protection from cellulosic fires in C2-C3 interior environments.

Characteristics:

- Thin film technology, quality smooth finish.
- Environmentally friendly Declare and Red List Free.
- Simple on site application.
- Low odour, low VOC.

Advantages:

- Timber and plasterboard can be direct fixed to coated surface.
- Can be used as part of the Korok 2-way fire wall design system.
- Ideal for Green Building projects.
- Low odour, low VOC.
